REASONS WHY THE
AMERICAN WATCH,
Made at Waltham, Mass.
IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with the harmony of its working and no sudden shock can damage its machinery, (itself famous for its novelty, as well as for its effectiveness) and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancres," "lepines" and "English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low-priced watch for the million, to take the place of those foreign impositions—the refuse of foreign factories—which were entirely unsaleable at home and perfectly worthless everywhere.

How well we have accomplished this may be understood from the fact, that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequalled by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main buildings expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used and we challenge comparison between the grade of our work and the finest imported chronometers. We do not pretend to sell our watches for *less money* than foreign watches, but we do assert without fear of contradiction, for the *same money* our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

JOHNSON IN HIS TRUE COLORS.

The following article is from the New York *Evening Post*, a strong Administration paper. If the friends and apologists of Johnson see him as the *Post* describes him, how must he look to his opponents, the Radicals?

If an acute observer of the springs of public opinion were asked to-day, in what lies the strength of those unreasonable and illogical politicians who appear to have got possession of the Republican party, he would answer, it lies in the profound mistrust of Johnson's designs and motives, with which his course has inspired the people of the Northern States.

To the little Club of politicians whom their opponents have dubbed "Radicals," the President has been a great card. Without his assistance—without his violent speeches—his injudicious conduct—his wild denunciations of the motives of those opposed to a sound policy—without his insulting remarks about Congress, and his equally insulting attempts to dictate to the people and to impose his will and wishes upon them, and control the elections by such foolish means as wholesale removals from office—without all this, we do not believe the line of policy advocated by Stevens and the *Tribune* would have had at this time even a remote chance of success before the people.

It is a serious responsibility which falls upon the President of the United States, and he would do well to consider it. He has been long enough in political life to know that it is not sufficient that a man should be right. To be a practical and successful statesman, in a free country, it is also necessary that he should be able so to present the right as to make it acceptable to the people, who are his masters, and whose consent and support is required to make even the most just and necessary policy succeed. It is, perhaps, Johnson's misfortune that he was too long trained in a school where vituperation took the place of sober discussion, where a bitter tongue was held to be a sign of a clear brain, and where the most vigorous scold was too often the most fortunate man on election day.

However that may be, it is worth while for him to remember that in politics, as in war, success is the test of merit, and he has certainly, by his language and conduct for some months past, taken the surest means to disgust the people of the Northern States, not only with himself, but, what is of far greater moment, with the sound policy which has the misfortune to have his countenance. It is a melancholy reflection to those who have found it their duty to support that policy, that their most damaging opponent is the President, and that he makes a judicious course so hateful to the people that no argument is listened to, and no appeals to reason, to the Constitution, to common sense, can gain a hearing.

We do not scruple to assert that if the President of the United States had to-day the confidence of the people, not in the same degree that Lincoln possessed it in his latter days, but in only a moderate degree, the policy which is now so unpopular would receive the general assent of the nation. We say this deliberately, and for the reason that three-fourths of the Republicans we speak with we find ready to acknowledge the expediency of it—if only they could trust the President. They are tired of what they see to be an endless conflict; they have but little confidence in the wisdom of such men as Stevens and such journals as the *Tribune*, whose perverse and unwise course during the war is not forgotten; they see that there is but little real ground of opposition to the immediate admission of the States to Congress, especially with the so-called "test oaths;" but they suspect the good faith of Johnson; they believe he harbors secret designs in favor of the late slaveholders; they believe him to be a false friend to liberty; they are persuaded that he means to misuse the great power and influence of the Presidential office for ends injurious to liberty and to the welfare and honor of the nation. It is quite useless to argue against these convictions. The retort comes quickly. If he is a true man why does he appoint the most notorious Copperheads to office? Why does he insult again and again the Congress, a co-ordinate branch of the Government, the direct and immediate representatives of the nation? Why are his chief supporters, like Montgomery Blair, going about the country reviling the most faithful defenders and supporters of the Union? Why does Johnson himself consort with men who, during the whole course of the war, had only scorn and hate for our soldiers and for Lincoln? We confess that these are questions hard to answer. We leave them to Seward, who, alone of the public, so far as we know, thinks the President the wisest of mankind, and who, perhaps, may be able to give a reason for the faith with which he is filled to overflowing.

For ourselves we grieve to see the President of the United States, by the indulgence of unseemly passions and the use of indecorous language, stirring up hatred where he ought to be sowing peace and concord. What do we want, what do we need? Is it a revival, in all their fury, of the party hatreds which brought on us the late civil war? Are we better off for blowing up afresh those fierce flames, for stirring up anew distrust of men's motives for reviving the bitter strife of section against section, the solid array of the men of the South against the men of the North! Is any good gained for the country, or for any part of it, by such language as the President of the United States has used day after day in his journey through the Northern States?

Does Johnson consider what effect he has produced by these speeches? He may have gained personal popularity with unthinking people in the Southern States—and only with them, for some of the most respectable Southern men, not of the class called loyalists or radicals, have expressed to us their profound grief at his course and language. He may have gained some popularity with ignorant men in the South, but, alas! at what expense; by persuading them that the Northern people desire and mean to do them injustice; by arousing in them anew suspicions of the good will and the good faith of the North. Is that a great public good? Is that what the President of the United States should think his duty? On the other hand, he has made a wise and just policy of reconciliation hateful to the mass of the Northern people by inspiring them with a deep alarm and distrust of his own motives and intentions. He, standing in his great office, aloof from parties, the reconciler of differences, the conciliator of opponents, the impartial guide and counselor, has, through his own misconduct, inflamed hatreds, revived sectionalism, and in both sections given an advantage to wicked and misguided men to mislead public opinion, to the injury of the country.

It is of no use for him to scold at "radicals"—it was his business, as a wise statesman, so to conduct his administration as to disarm these men. They were but a handful at first, who did not possess the confidence or favor of the loyal people; Johnson, for many months, possessed both in an eminent degree. It was by his own faults and mistakes that he forfeited them. He seems to have forgotten that it is the business of a wise statesman not to raise up obstacles, but to diminish them; not to create difficulties, but to smooth the way for the general acceptance of the policy which he wishes to advance. "Main strength and stupidness" is not a good "purchase," as any sailor knows; a good pilot does not drive the ship over the rocks, but steers clear of them; a skillful captain does not scold at the winds, he trims his sails. A President of the United States, who believes that he is not master but servant of the people, will endeavor to win their confidence, to impress upon them the justice and safety of his policy, and thus to administer his policy with their consent—because he knows that without their consent he is powerless.

Johnson would do well to remember that, whether for good or evil, he must take his place in history. His administration may be a blessing to the country; it may be even a greater curse than that of James Buchanan. Thus far he has only succeeded in raising up against himself and the policy which he favors a tremendous opposition. It is a feat of which he will not hereafter be proud—a man of far less ability could have done this much as well as he. If he has wisdom and capacity to quell the storm, to regain the confidence he has sacrified, it is high time for him to begin. One thing is sure—without the support of the twenty loyal States, and of the 22,000,000 of loyal people, whose bravery, endurance and devotion to the Union saved Johnson from being a homeless refugee, and gave him a country to be President of, without their confidence and support, no plans, however wise, no policy, however just, that he may favor can succeed. The people who fought out the great war will have their say upon the question of reconstruction, and it is the part of wise statesmanship to persuade them, for they cannot be driven.

FAST TIME.—A correspondent of the Sacramento *Union*, over the signature of "Yolo," gives the following statement of the fastest racing time on record. As a matter of interest to turfmen, we give his statement in full:

One mile, pacing, Pocahontas	2:17½
One mile, trotting, under saddle, Dexter	2:18
One mile, trotting, in harness, Flora Temple	2:19¾
One mile, trotting, to wagon, Flora Temple	2:25
One mile, trotting, double harness, Ethan Allen and running m. Socks	2:19¾
Two miles, trotting, in harness, Flora Temple	4:50½
Two miles, trotting, to wagon, General Butler	4:56½
Two miles, trotting, double harness, Lady Suffolk and Rifle	5:19
One mile, trotting, double harness, George Washington and Old Put	2:35½
Three miles, trot ing, saddle, Dutchman	7:32½
three miles, trotting, harness, Flora Temple	7:44½
Four miles, trotting, harness, Trustee	11:06
Four miles, trotting, wagon, Sally Green	13:56
Five miles, trotting, harness, Fillmore	13:16
Five miles, trotting, wagon, Mary Warren	14:42
Ten miles, trotting, harness, Prince	28:08½
Twenty miles, trotting, harness, Trustee	59:35½
Fifty miles, trotting, harness, Ariel	3:55:40½
One hundred miles, trotting, harness, Conqueror	8:56:40½
One hundred miles, trotting, double team Master Burke and Robin	10:17:42
One mile, running, Legal Tender	1:44
Two miles, running, Hegira	3:34½
Three miles, running, Idlewild	5:27½
Four miles, running, Lexington	7:19¾

Bonner's gray mare, Peerless, trotted a mile to a wagon, driven by Hiram Woodruff, in 2:23½; and Lady Palmer and Flatbush Maid, two miles, under the same conditions, driven by their owner, in 5:01¼. This however, is private time, and not on the racing record. The same mares also trotted a mile to a road wagon in 2:26, also private time.

For a long time the fastest mile in double harness was made in September, 1861, at Yolo Grove Course, by Shot and Rainbow, in 2:36½, when on August 21, 1866, India Rubber and Rosa beat George Washington and Old Put in 2:36. Ten days afterwards the same teams trotted, when George Washington and Old Put trotted the fourth heat in 2,35½, as above reported. Of the double team race of 100 miles, deducting 28:34 for stoppages, and the actual traveling time is 9;48:48. Legal Tender's time, 1:44, in a running race for one mile, is the fastest time on record. Previous to that, Mammona's time, 1:44¼, headed the record. Henry Perrit and Hegira are both said to have run a mile in 1:42½; in each of these cases the race was two-mile heats, and there is enough doubt about the performance to exclude them from the record. As a matter of principle, the time for one mile should be in a one-mile heat. Although the judges in two-mile heat may make up the time of each mile, they do not place the horses, except at the end of the race. In the three-mile running race it is commonly reported that our California horse, Norfolk, made the best time on record. He ran at Sacramento in September, 1865, at four years old, with 100 pounds, in 5:37½. Idlewild ran on Long Island, as a six-year-old, 117 pounds, in June, 1863, in 5:27¼. With California State rules, were he a six-year-old, Norfolk would have to carry 118 pounds. For a four-year-old he has made the best three-mile heat on record. Brown Dick ran as three-year-old, in 1855, with only 86 pounds, in 5:28; with Northern rules he really was a four-year old, and would have had to carry 104 pounds. Mollie Jackson ran, in 1861, as a four-year-old, with 101 pounds, in 5:28¾—a third heat. In the four-mile running race, Lexington ran against time, and with Southern weight only carried 103 pounds; whereas by Northern rules, he would have had to carry 114 pounds. Nevertheless, it is quite doubtful if Idlewild's was a better race, who ran as a six-year-old, with 117 pounds, in 7:26½.

CURE FOR CHOLERA.—Rev. Doctor Hamlin, of Constantinople, saved hundreds of lives, it is said, by the use of the following simple preparation, during the terrible rage of cholera in that city a few years since. In no case did the remedy fail where the disease could be reached in season. It is no less effective in cholera morbus and ordinary diarrhœ: One part laudanum, one part camphorated spirit, two parts tincture of ginger, two parts capsicum. Dose—One tablespoonful in a wine glass of water. If the case is obstinate, repeat the dose in three or four hours.

The New Haven *Palladium* of a recent date contains the following good thing:

"What makes you think," asked a Dixon-Babcock "conservative" of a Republican, "that the Democratic party, and that we shall be called upon to support Democratic nominations this fall?" "For the same reason," was the reply, "that Lord Dundreary's dog wagged his tail—because the tail isn't big enough to wag the dog."

A COUNTRYMAN who attended a fashionable party where the ladies wore their dresses cut very low in the neck was asked by the host if ever he had seen such a sight, before. "*No!*" said he most emphatically "*not since I was weaned.*"

COLD WATER AS A PERSUADER.

"Love rules the camp, the council, and the court," some poet sings. If this is not the exact quotation our readers will pardon us. What we want to get at is that love is powerful—that it is a lever which, with a proper fulcrum, will move the world. Leander for the sake of Hero swam the Hellespont—a young man of Toledo, for the sake of one as beautiful as Hero, allowed her father to flounder in the turbid waves of the Maumee an hour or so last Sunday. The matter was somewhat like this:

A young Irishman as "tight a lad as ever crossed the say," was, and had been for some time, desperately enamored of the charms of a young maid of that race, which love was returned with interest. The mother of the young lady approved the match, but, alas! (was there ever a love affair without an alas!) the paternal parent was obdurate. He couldn't see it. He had accumulated some money, and prided himself thereupon, while Phelim, as we will style our hero, (the hero of a story is always the young man in love,) hadn't a dollar to his name, it taking all of his earnings to keep his mother and an invalid sister. The old gentleman had higher ideas for his daughter, and last Saturday night the two lovers were made miserable forever by the hardhearted old wretch ordering Phelim out of the house and enforced his command with a brick. Kitty, (that is the name we shall give the heroine, which is the title always given to the young lady in love,) threw herself between the angry men, and succeeded in getting the enraged young one away from the domicil before the matter came to extremities.

Phelim was in no good humor that night. He knew Kitty loved him, and he also knew that she would marry him, father or no father, but he was a prudent young man. If he should marry her, and the old gentleman shouldn't do the handsome, how would they get started and how would they live? Love is all very well, but it don't furnish a house, neither can it exist without beef and potatoes. For an article of which so much is written, it is terribly matter-of-fact; and, besides, Kitty was an only child, and if he married her without the old gentleman's consent, how about the property when the old buffer Death knocks him out of time?

All of these things, and a great many more too tedious to mention, was Phelim cogitating as he was walking pensively along the river the afternoon ensuing. A splash awoke him from his reverie—he sprang toward the place—he looked in the water—and, good heavens! to the surface came the bald head of Kitty's father! Here was vengeance for him. The old gentleman could swim a little, just enough to keep above water a few minutes—there was nothing for him to hold to, and nobody but Phelim in sight. Should he let him drown, and go up and marry the girl? No, he would save him. Irish generosity overbalanced his love, and, seizing a long but very slender pole lying near by, he reached one end to him. The old gentleman took it—Phelim commenced hauling in, when a thought struck him, and he shoved him back into the water, allowing him to still hold to the end of the pole.

"Do ye know me, you old blackguard?"

"Av coorse, I do—pull me up!"

"Are ye intirely comfortable there in the water?"

"Pull me up, ye spalpeen."

"Faix, an' that I won't. Its the first time I iver saw ye in the water, and it plazes me."

"Pull me up."

"Will ye consint?"

"Consint to what?"

"Kitty—ye know well enough what I mane!"

"Niver!"

"It's all one to me—ye may dhrown intirely, and who'll stop me thin? Think twice. Will ye consint?"

The old gentleman was becoming exhausted. He never liked water at best, and the Maumee was too much for him.

"Yis! I consint. Pull me up!" he roared.

"Will ye give us a settin out?" said Phelim, who knew his advantage, and was disposed to improve it.

"Yis! Pull me out!"

Phelim hesitated a moment as to the propriety of tying him in some way to the dock in the water, and going up and marrying the girl before saving him, but he finally thought he could trust him, and he hauled him out of the water.

The event proved that the old man was as good as his word. The young couple were married, and yesterday they were moving a very comfortable outfit for housekeeping into a neat cottage which the father of Kitty possesses and has heretofore rented.

His falling into the river was the result of inordinate doses of whisky, which he commenced taking immediately after the skrimmage of Saturday night, and continued at regular intervals, with an occasional one between the intervals, up to the very hour of his plunge. He was in an oblivious condition, and would have drowned, but for the timely presence of his present son-in-law.

Whisky and water accomplished good once, at least.—*Toledo Blade.*

"DADDY," said a hopeful urchin to his paternal relative, "why don't our schoolmaster send the editor of the newspaper an account of lickings he gives the boys?" "I don't know, my son," replied the fond parent, "but why do you ask such a question?" "Why, this paper says that B. has tanned three thousand hides at his establishment during the past year, and I know old Grimes has tanned our hides more'n twice that often!"

The tradesman immediately threw his bill into the fire. "Now, sir," said he, "mine is a debt of honor which I can't oblige you to pay, Fox immediately settled.

AGE RECORD.—Among the Moravians of Germany, females always wear neat white caps at church and in general society, and designate their age and civil state by the color of the ribbons under them. Up to sixteen, the ribbons are dark red; maidens above that age, wear pink; when they marry they put on blue; when they become widows they wear white.

DUTCH FLAT ENQUIRER.

SATURDAY, : : : OCTOBER 20th, 1866.

WHISKY BARRELS.—A few days ago our attention was attracted by the exportation from our town of several car-loads of whisky barrels. As a large portion of them had been stowed away before we noticed them, we are unable to state the exact number, nor have we been able to ascertain the probable length of time that they had been accumulating. As all that we noticed were apparently fresh and in good order, we conclude that they were the accumulation of but a brief period. In the exercise of our Yankee *penchant* for "guessing," we estimated that the above shipment (of pipes, hogsheads, barrels and half barrels) comprised about one cask for every three voters in our community. We presume that these casks would about average thirty-six gallons, and that their emptiness resulted from an average consumption of twelve gallons per voter in, probably, a period of not over six months. Naturally and irresistibly, the sight of these exhausted "infernal machines" suggested a train of reflections similar to those which would pervade the mind of one who, on visiting an ensanguined battle-field, should contemplate fragments of bursted shells or exploded torpedoes. As we viewed these Devil's omnibuses for hell-bound souls, in imagination, we seemed to hear, in the hollow echoes of their caverhous emptiness, the moans of despairing wives and mothers, and the wails of cheerless and wretched children reverberating. Into their yawning port-holes of destruction we seemed to see an endless tide of hard-earned dollars flow, diverted from the payment of honest debts, or the support of a needy family, or the moral and social advancement of the owner, to destroy his health, enervate his system, befog his brain, wreck his fortune, render home and friends miserable and reduce him to the condition of a brute if not to that of a demon. And why was the shipment made? To destroy the vehicles of destruction? No, but to return them, refilled with drugs to poison the blood, fire to inflame the passions, and rods to sunder household gods. Comprehending that from their ghastly portals, sin, crime, death and every imaginable evil must—and that no moral, physical or mental good ever did or possibly can flow, is it possible that a people boastful of their intelligence and capacity for wise self-government are incapable of willing and executing the peremptory mandate: These gates of death, these soul-sepulchres must, they shall be closed!

BUNSBY ON THE TRIPOD.—Jack Bunsby, in his most oracular mood, could scarcely have improved on the following grave utterance of the Chico *Courant*, in commenting on the result of the late elections in the East. Says the *Courant*:

"The decision of the people in the late elections is not a condemnation of the policy of reconstruction, as enunciated by President Johnson when he assumed the Presidential Chair, for we believe a large majority of the Union party, and the people generally, heartily endorse that policy—but it is rather a condemnation of Andrew Johnson personally."

We should "like to know" of the wise pundit of the *Courant*, whether, in the profundity of his judgment, the reconstruction policy of Congress, as "enunciated" through the proposed amendments to the Constitution, entered, in any degree, into the late canvass, and whether the "decision of the people" was an endorsement of that policy or only of the members of Congress personally.

A HOWL FROM COW-COUNTYDOM.—We make the following extracts from an article occupying a column and a half in the *Clear Lake Courier*, the whole article reeking with like elegant and refined "*conservative*" ranting. "From last advices a conflict seemed inevitable, let the election go as it might. This time however, if it *does* come, it will be between Democracy and Radicalism. If so, the Radicals will bring it upon themselves, and in such case, God have mercy on them, for Abolitionists will be so thick in h—l that *a fresh soul won't be worth as much as a summer coon skin in Missouri*." The tenor of the article from which we quote indicates no method by which the Radicals are to draw down upon their devoted heads this terrible and crushing doom, except by voting according to their convictions and choice. Speaking of the clear-headed and iron-nerved A. J., this lamb-like ex-Apostle of Peace says: "Let him but prove to us that he is sincere and honest in his conduct, and the Democracy of the Union and of California *will support him at the point of the bayonet if necessary*." The above is literally quoted, the terrifically rambunceous *Courier* man being wholly responsible for the italics. We confess to a terrible shaking in our Radical boots on perusing it, and advise all of our way of thinking to "put their houses in order" and be prepared to migrate at sight of the glint of the first bayonet from Clear-Lake-ward.

CELESTIAL WARFARE.—Chinatown was last evening made the scene of an interesting spectacular drama in the shape of a combat between a male and female worshipper of Josh. Sundry knock-downs were succeeded by a clinch, the latter resulting, fortunately for madam, in making her antagonist the "under dog in the fight." With rare tact and presence of mind, she made herself "mistress of the situation" by gracefully, yet firmly enclosing his nasal protuberance between her dainty incisors, which, after eliciting an octavo of piteous howls led to the capitulation and unconditional surrender of the masculine party.

DEATH OF A CALIFORNIAN AT THE EAST.—A telegraphic dispatch to the publishers of the New Age, conveys the painful intelligence of the death of P. G. M. William M. Allen, of cholera, in Philadelphia, on the evening of the 9th instant. Mr. Allen was a clerk in the house of T. Rodgers Johnson, San Francisco, and represented the Grand Lodge of California I. O. O. F. in the Grand Lodge of the United States.

[illegible].—Jones complained of a bad smell about the post office, and asked of Brown, "What can it be?" "Indeed, I don't know," said Brown, "unless it's the dead letter."

[illegible] & Burney, law firm of Grass Valley, paid to the Revenue Collector, last week, the sum of $17,000 as the income tax of five miners in that township.

JOHNSON BOOTS US.

Late advices from Washington are reported to be confirmatory of the report, hitherto published, that the huge tub of oleaginous entrails and sour-lager *yclept* John Bigler, has floated on the foul tide of Copperjohnsonism into the United States Assessorship for this (the 4th) District, vice John M. Avery removed. As is well known, the present Revenue system of the General Government is extremely intricate, there is probably no official position in which the interests of the Government, the convenience of the people and the ends of justice more imperatively demand a clear-headed and experienced officer, than in that of Federal Assessor. Assuming to be well-advised and well-informed in the premises, we have no hesitation in asserting it as a generally conceded fact, by all who have been conversant with the management of the office, that Mr. Avery is peculiarly qualified for the position from which he is about to be removed. He has made the duties of his office the object of constant and assiduous study for four or five years. All of its intricacies and minutiæ have been mastered, and systematized by him; he is possessed of a remarkably clear brain; is methodical in his habits; urbane in his deportment; concise in his decisions and, taken all in all, has been admittedly the model Assessor of the Pacific Coast. His successor, on the other hand, is peculiarly and notably *unadapted* to the position. Gross, sensual and indolent, his brain is foggy, his habits unmethodical, his deportment demagogical in the extreme. We feel that we hazard nothing in averring that not one in ten thousand of those who know aught about the duties of the office and the qualifications of the two men, can truly and candidly express their convictions without declaring that Avery is incalculably better fitted for the position than is his successor.

Why, then, we may sensibly and pertinently ask, has the change been made? Why has an efficient, capable and experienced officer been removed to make room for one who is notoriously unfit for the position? There is but one reason or pretense—*John M. Avery has been true to the principles which induced him to assist in elevating Andrew Johnson to the office which gives him the power of removal!*

Though a sincere interest in the welfare of the Government, and admiration for a thoroughly efficient and estimable officer compel us to regret the change, yet, a change being inevitable, we are inclined to view this one with much complacency, in view of the results that must inevitably flow from it. The history of the past six years demonstrates nothing more palpably and unmistakably than that, when the criminality of treason or the privileges of traitors are under discussion, a good, sound Copperhead or rebel "*booting*" is necessary to counteract Radical tendencies toward "magnanimity" on the brain or "conciliation" of traitors in the blood. It may be among the unpublished decrees of an over-ruling Providence, that the time is to come when loyal supremacy in California can only be perpetuated by off-setting the votes of black-hearted disloyal whites with those of black skinned loyal men.

If ever the fullness of that time *should* arrive, we are satisfied that some such kick from the Executive boot, as has been administered by this Bigler appointment, would be essential to *drive* Radicalism into *allowing* black men to save the country with the ballot, as we were driven into allowing them to help save it with the bayonet. Only convince the people of California that negro votes are essentially necessary to prevent Frank Washington's reopening his "Virginia Poor House" at the seat of customs in San Francisco, or to keep Penn Johnson from returning to the United States District Attorneyship, or the Biglers, Wellers *id genus omne* from feeding at the public crib, and "negro suffrage" will be the certain result. It may be that the Lord is hardening Pharaoh's heart, and stimulating conservative hunger for office with reference to such an emergency.

EUREKA!—At last, after much frowardness and many frownings, Fortune has deigned to smile benignantly on the amusement-loving portion of our Dutch Flat community. After inflicting such a series of humbug "Troupes," vagrant and incompetent "lecturers" and flat, stale and unprofitable "readings" as to suggest bilkedness as our normal condition, the fickle goddess has vouchsafed *one* "show" that was all and more than it promised. The subtleties of a refined instinct, the magnetism of sympathetic enlightenment or some other occult influence, combined with the merits of an incomparable show-bill, induced the attendance of a large portion of our population to witness the performances of Mart. Taylor and "the family" at the Theater last evening. The songs and recitations by the elder Taylor, Mr. M. Taylor, Mart. and Matter Taylor were all received with hilarious applause full as boisterous as was consistent with respectful good-breeding. The songs by the "female auxiliary" were sweetly sung and her readings were admirable, infinitely superior, in our humble judgment, to those of some who have honored us and who were notedly surcharged with the "divine afflatus." The extraordinary resemblance between the members of "the family" were the subject of general and wondering comment. Without an opera-glass it was almost impossible to distinguish between the well-preserved juvenile "Senior" and the well-developed precocious "junior," while the elephantine proboscis of the old man has descended to this posterity, "even to the third and fourth generation." Mart. will give another exhibition to-night—we only regret that he can't pitch his Commercial Academy overboard, come every Saturday night and stay a week.

BUSINESS STATISTICS.—The *Mercantile Gazette* of this week has the business statistics of the first nine months of the year 1866. Exports of all kinds of produce, $12,171,631; nearly $2,000,000 more than last year. Treasure, $34,688,432; in 1865, $33,111,365. The Government has sent $8,500,000 additional. The mines have paid $42,590,000; while last year during the same time, they gave $45,000,000. Government has spent $9,500,000, and taken in $8,300,000. Last year the expenses of Government were $3,000,000 more, and receipts $500,000 less than this. Passengers arrived, 19,739; departed, 16,385; gain, 3,354. The number of vessels arrived, 1,714; capacity, 536,816 tons; freight paid on cargoes, $3,329,804. Over a million less than was paid in freight last year in the same period. There has been a considerable falling off in imports.

THE PUBLIC SCHOOLS.

DUTCH FLAT, Oct. 19, 1866.

There never has been, neither do I think there ever will be, a Teacher in a Public School who can please everybody. However much the Trustees may desire to promote the welfare of the Public Schools in Dutch Flat, I do not think that in order to attain that object it is necessary to take cognizance of every vague and undefined report respecting the Teacher which may have been the town-talk for a day or two, or the subject of an article in the newspaper.

Should any parent or guardian of any child attending the Public School think there is just cause for complaint against a Teacher, I think the proper course to adopt would be to lay a specific charge before the Trustees. This being done, the Trustees would impartially hear the testimony of all parties concerned and act in accordance therewith. I think, sir, you will admit that this course would be the most proper one. By circulating charges, *which we may believe to be true*, but which perhaps we may not have thoroughly investigated as we might have done, we may possibly be doing a Teacher great injustice. There need be no doubt as to how the Public School in Dutch Flat is conducted—it is at all times open to public inspection and parents are especially welcome and their visits solicited by the Teachers, in order that they may judge of the progress of their children and stimulate them to increased attention to their studies.

Yours, respectfully,

ONE OF THE BOARD.

[It is with no little reluctance that we re-enter upon a discussion of the subject treated of in the above communication. In doing so it is our intention to try to exhaust and close the discussion, so far as we are concerned. We will state, as succinctly as possible, our reasons for calling attention to the matter in the first place, though our doing so may compel a repetition of portions of former articles on the same subject. Premising that we have never, in a single instance, *sought* any information concerning mismanagement in our Public School, we will recapitulate the statements which led us to consider Mr. Frink unsuited for the position and his occupation of it a public grievance. We were informed by many of the largest and most intelligent of the scholars:

1. That Mr. Frink was often absent-minded during recitations, oblivious to answers given and would frequently, on arousing from his reveries, repeat questions which had been previously answered.

2. That he was frequently querulous, nervous and impatient, and that his manners at such times excited, uncontrollably, the ridicule of the scholars.

3. That he was in the habit of seizing children by the throat and shaking them violently by way of correction for trivial faults. In some instances scholars were corrected thus for repeating the practice of snapping their fingers to attract attention, which had become a confirmed habit under former teachers and which they could not readily control.

4. That on one occasion he fell asleep and slept for half an hour while a class was on the floor for recitation.

5. That on one occasion he struck a lad with his fist with such violence as to black his eye.

6. That on one occasion he knocked a lad off the platform with his fist three times, and thrashed him over the head with two switches; the offense in this case having been that the lad did not know a lesson from the fact that he did not know where the lesson was and Mr. Frink had refused to tell him where it was, when requested to do so.

The substance of these charges had been contained in our former articles on the subject. We consider the charges neither "vague" nor "undefined," but, on the contrary, sufficiently "specific" to demand the removal of the teacher, if sustained. Now, as to the reason why we made the matter the subject of a newspaper article, instead of laying a "specific charge before the Trustees." The matter was the town talk, freely discussed and commented on between the scholars on every street-corner, and of the many in whose statements we had confidence were the children (well-grown and intelligent) of two of the Trustees. Very naturally, we took it for granted that matters which came to our ears through their children, must have been heard of by the Trustees. If this surmise was correct—if the Trustees had heard such abuses charged and had failed to make a proper investigation, we considered it fit and proper, and within the legitimate province of journalism, to arouse the public to a sense of the outrages perpetrated on our little ones, through the medium of the press. As to the points contained in the above communication, we admit that it is difficult for a teacher to "please everybody,"—this is a patent truism, but, if the above charges against Mr. Frink are true, we are surprised that he pleases "*anybody*"—even our worthy Trustees. We cannot agree with "One of the Board" that visits by parents or Trustees would have any tendency to establish or refute such charges as the above, or to abate such abuses if they exist. Such abuses might be of frequent occurrence and yet not be perpetrated during such visits. If we have any confidence in the veracity of the scholars, as they are always present, an open inquiry addressed to them, as heretofore suggested by us, would seem to be the simplest and speediest method for arriving at the facts.

The stress which, in a former communication, "One of the Board" laid on what "two of the Trustees" and "one young lady" *had not seen*, in rebuttal of what a score of scholars declared they *had* seen, reminds us of an anecdote of a Dutch Justice, which we will repeat for our correspondent's benefit: Twenty persons having testified as eye-witnesses to the guilt of an accused party, the defense brought twenty-one who had not seen him commit the crime charged, when this model justice discharged the prisoner on the ground that the preponderance of evidence was in his favor. Though we are somewhat rusty on legal questions, we have a decided impression that testimony of the above character is not considered good evidence in our California jurisprudence. "With these few remarks" we propose to rest our case. If the Trustees and the public are satisfied with matters as they stand—if the Trustees are indisposed to any other investigation than that afforded by a casual visit—if everybody else is satisfied, why, of course we must be.—ED.]

GOOD TEMPLARS—Remember your degree meeting to-night.

IS IT SO?—In descanting on the business statistics furnished by the *Mercantile Gazette* and published elsewhere in our present issue, the political economist of the Sacramento *Bee* remarks as follows:

"Money goes from this State for investment, when we increase exports of all kinds and cease imports. And it is not to be wondered at when we remember, that by taking capital from here to New York, it increases from 25 to 30 per cent. for all practical purposes, and though the very large crops of all kinds this year will be a great help to the State, yet after all the Eastern States are fuller of business life and are growing in wealth and power much faster than we are."

There may be sound and incontrovertible philosophy in the above declaration, and we may be the veriest of dunderheads for failing to comprehend and endorse it at a glance, but such is the fact—with all due deference we most humbly declare that "we can't see it." According to our idea, (or prejudice, as the case may be,) the fact that a community is capable of producing everything required for home consumption and a surplus for export, would seem to indicate the home of said community as a more desirable field for the investment of money than a like territory in which the resident community was not only incapable of producing a surplus, but necessitated to rely on the outside world, through the medium of importations, for the supply of home wants. As is most proper and commendable in a petty provincial journal, we are prone to extreme diffidence in joining issue with our urban cotemporaries, especially when commercial or financial topics are involved. Consequently, in the present instance, it is not without serious misgivings and considerable trepidation that we venture to controvert the position of our habitually philosophic neighbor. In fact, after mature reflection and sober second thought, perhaps it would be better for us to assume the *role* of querist and deferential seeker after information, than that of controversy. Would it be too much trouble for our busy little friend, who has doubtless "improved each shining hour," and gathered rich stores of statistic honey, to furnish the sweet pabulistic figures which confirm his assertion that "by taking capital from here to New York, it increases from 25 to 30 per cent.?" If he has the figures to sustain that assertion, can he reconcile such proofs and the retention of *any* capital in California with any other theory than that of financial idiotcy on the part of our capitalists? Is it not barely possible that the lavish importations and extravagant expenditure of our Eastern brethern have begotten a spendthrift's demand for money, and that ultimate impoverishment will be the result of giving us 25 to 30 per cent. more for money than it is worth under our most cautious and economical system? If, on a more thorough examination, this should be found the true state of the case, is it not possible that the fullness of "business life" and "growth in wealth and power much faster than we," may be rather apparent than real? On the whole, is it not probable that, if we continue our plodding course, increasing production and exportation and decreasing or entirely suspending importation, that in the course of no very distant future, capital will conclude that ours is a fair and safe field for investment, and that we will be full of healthy business life, and that we will ultimately realize a substantial growth in wealth and power? We ask for information and pause for a reply.

MEETING OF THE BAR.—At a meeting of the members of the Bar of Placer county, held at the Court House, in Auburn, on Friday, September 12th, 1866, Hon. H. Fellows, was called to the Chair, and J. Ives Fitch appointed Secretary.

On motion the following named gentlemen were appointed a Committee on Resolutions: C. A. Tweed, Jo Hamilton, L. B. Arnold and P. W. Thomas.

The following Resolutions were reported by the Committee and unanimously adopted by the meeting, whereupon the meeting adjourned.

H. FELLOWS, Chairman.
J. IVES FITCH, Secretary.

WHEREAS, It has pleased the Almighty Ruler of the Universe to remove by death our esteemed friend and brother, James Anderson, in the prime of life, and in the midst of an honorable career; be it therefore, by the members of the Bar of Placer county here assembled.

Resolved, That in the demise of our deceased brother, society has lost one of its most genial, upright and cherished ornaments, our town and county one who has long been esteemed as a liberal minded and public spirited citizen, and the profession a talented, learned and upright member.

Resolved, That while we deplore his untimely death, we contemplate with melancholy satisfaction the many virtues which endeared him to all his acquaintances, and commend them as worthy of general imitation.

Resolved, That we sing deeply in the sorrow which afflicts his surviving relatives and friends, to whom we heartily tender our sincere condolence and sympathy.

Resolved, That we will attend in a body the funeral of our lamented brother, wearing the usual badge of mourning.

Resolved, That these resolutions be entered upon the minutes of the several Courts of this county.

LAKE TAHOE WATER COMPANY.—This company has been duly incorporated, and some of its members are now at the East making the necessary financial arrangements. It is proposed to tap the lake at the northern end, in this county, by means of a tunnel 15,000 feet long, which will conduct the water of the lake to the North Fork of the American River. It will be brought in ditches and flumes to Auburn, and hence in sheet iron pipes to San Francisco. It is believed this enterprise will furnish plenty of water for mining and irrigation, besides supplying the cities Sacramento, Benicia, Oakland and San Francisco. The surveys have been made, and the work will be completed in from six to eight years.—*Stars & Stripes.*

"FAILED TO CONNECT."—A nice young man, a dry goods clerk in this city, says the San Jose *Mercury*, planned an elopement, to come off on Saturday last, with a gushing young maiden of some twelve or fourteen summers, also of San Jose. They arrived at the Depot all unsuspected, and the young man had secured his tickets for San Francisco, when the maiden, repenting her rash act, "wanted to see her ma." In short she backed out completely, "failed to connect," and left the sighing swain in amorous dispair.

MRS. STURGIS HOOPER, the rich Boston widow, has sacrificed the interest of a hundred thousand dollars, bequeathed her lately by her late husband's grandfather (as a property to belong to her as long as she remains a widow,) in order to become Mrs. Senator Sumner and a leader in the Senatorial society of Washington.

A LUXURY PAID FOR.—It is related that a repentant agressor recently appeared before Justice Cummerston, of Chicago, stating that he had committed an assault and battery, and wished to receive the merited punishment. The Judge made him swear out a warrant, investigated the case, and fined him twenty-five dollars.

DOESN'T WANT TO BE BOTHERED.—The Boston *Post*, a copperjohnson paper says: Will the *Journal* please keep quiet about the Maine election. We are busy.

HOSTETTER'S
CELEBRATED
STOMACH BITTERS!
A PURE AND POWERFUL TONIC,
CORRECTIVE AND ALTERATIVE,
—of—
Wonderful Efficacy in Diseases of the
STOMACH, LIVER AND BOWELS.

Cures Dyspepsia, Liver Complaint, Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fever, Cramps, Spasms, and all Complaints of either Sex, whether arising from Bodily Weakness, whether inherent in the system, or produced by special causes.

NOTHING THAT IS NOT WHOLESOME, genial and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind, no deadly botanical element; no fierce excitant; but it is a combination of the extracts of balsamic herbs and plants, with the mildest and purest of all diffusive stimulants.

As a General Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be appreciated. In case of Constitutional Weakness, Premature Decay and Debility and Decrepitude arising from old age, it exercises an electric influence. In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed it operates to reinforce and re-establish them.

The weak Stomach is rapidly invigorated and the appetite restored by this agreeable Tonic, and hence it works wonders in cases of DYSPEPSIA, and in less confirmed forms of INDIGESTION. Acting as a gentle and painless apparient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive secretive organs.

Persons of feeble habits, liable to Nervous Attacks, Lowness of Spirits and Fits of Langour, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive and from both sexes.

The agony of BILIOUS COLIC is immediately assuaged by a single dose of the stimulant, and by occasionally resorting to it, the return of the complaint may be prevented.

Last, though not least, it is the ONLY SAFE STIMULANT, being manufactured from sound and innocuous materials, and entirely free from the acid elements present more or less in all the ordinary tonics and stomachics of the day.

No family medicine has been so universally, and, it may be truly added, deservedly popular with the intelligent portion of the community, as HOSTETTER'S BITTERS.

Sold by all Druggists, Grocers and Storekeepers every where, and by

CALIFO[illegible] HOSTETTER'S STOMACH BITTERS. While it is highly palatable as a beverage, it is unequalled as a tonic and invigorator. In the pursuit of fortune at the mines, many persons are exposed to the attacks of complaints of the digestive organs, and various kinds of fever. It is the very article that has so long been in demand in the mines. Its daily use will the tone of a deranged stomach, impart fresh vitality to the digestive functions, and cheer the spirits. Yet the Bitters is the safest of all stimulants. Let the miner who is exposed to hot and dry, wet and cold, be certain to obtain a supply of the genuine Hostetter Bitter, and he will find it a certain safeguard to health. Dec9-3m

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism, it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 540, Washington street, San Francisco. Dec-3m

AT LEAST two-thirds of the Diseases with which the human family are afflicted, are brought on by the want of attention to the condition of the Blood. Whenever the blood becomes impure, no matter from what cause, the effects of such impurity are immediately felt, either in one way or another; and unless measures are at once taken to remove such impurities, the whole system becomes affected, and a long fit of sickness and sometimes death is the result. Dr. Samuel Adams, a well-known Chemist of San Francisco, has discovered certain herbs and roots, mostly of California growth, which he has combined with Sarsaparilla and Iodide of Potass, and succeeded in producing a Medicine that, while it is entirely harmless in every particular, will in short time completely eradicate from the Blood all impurities of whatever nature, and will restore the patient to perfect ROBUST HEALTH. The preparation is called "ADAMS' BLOOD PURIFIER," and is for sale at wholesale at the United States Drug Store, corner of Bush and Powell streets, San Francisco, and by Dr. D. W. Strong, Dutch Flat. 49

SPECIAL MEDICAL NOTICE.—DR. CHAS. H. TOZER would most respectfully inform the sick and afflicted that his MEDICAL INSTITUTE is at the same place, corner of Kearny and Jackson streets, San Francisco, where he has been established for many years, for the cure of special complaints. Having relinquished my old modes of advertising, which has become so common with all the Quack Doctors of San Francisco, filling up the newspapers with false references, for the purpose of imposing upon strangers, I think it is only necessary to inform those in need of a Physician of long experience and successful practice, that I can be consulted at all business hours, at my Medical Institute, corner of Kearny and Jackson streets, San Francisco.

Ladies suffering from the Whites, Piles, Weakness of the Back, Pain in the Side, Headache, Palpitation of the Heart, Derangement of their Monthly Sickness, and all other diseases that the Female System is subject to, will find prompt relief by applying to DR. TOZER.

A NEW AND GRAND EPOCH IN MEDICINE.—Dr. Maggiel [illegible] quantitarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of his wonderful and all-healing Salve. These two great specifics of the Doctor are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are not of the class that are swallowed by the dozen, and of which every box full taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disenfectant power of Maggiel's Salve. In fact, it is here announced that MAGGIEL'S BILIOUS, DYSPEPTIC AND DIARRHEA PILLS cure where all others fail. Which for Burns, Scalds, Chilblains, Cuts and all abrasions of the skin MAGGIEL'S SALVE is infallible. Sold by J. MAGGIEL, 11 Pine street, New York. R. H. McDonald & Co., San Francisco, and all Druggists, at 25 cts per box.

MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine quo non to the [illegible] rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others, to establish his reputation or ruin of another's fame. The Doctor conducts his own Institution in such a manner as must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge, unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt the consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—*News.*

THORNTON, the great English Astrologist, Clairvoyant and Psychometrician, who has astonished the scientific classes of the Old World, has now located herself at Hudson, N. RHEUMATISM.

Throughout this Coast a great deal of suffering is experienced from Rheumatism. Weeks and even months of protracted and aggravated misery is endured by the victims of medical insufficiency and ignorance, which could be cured just as speedily as was Mr. Sparrow, whose testimony is given below, and is only the echo of hundreds of other cases. Dr. Bourne cures without medicines, which accounts for his extraordinary success. No. 10 Masonic Temple, Post street entrance.

San Francisco, September 6, 1861.

Dr. BOURNE—Last winter I was nearly dead by an attack of inflammatory rheumatism. I suffered the most excruciating pains for about five weeks, without any hope of relief, when a friend [illegible] ed to see me, and assured me that if I would stop drugging and dosing, and go to you, that you would have me walking about the streets in three days. Sure enough, although I was utterly helpless, and conveyed to your house in a carriage, lifted into the bath, yet on coming out of it, I largely assisted myself, doing much towards dressing, [illegible] to the carriage. On the fourth day, I discharged my carriage and walked, with a friend's aid, the entire distance to your house (nearly a mile) and home again, and so on until [illegible]. I am happy to do you this little service of publicly certifying to the simple truth, leaving it to do its work among my friends and acquaintances who may chance to see this.

Your friend, JOSEPH SPARROW.

CONSUMPTION.

An Interesting Letter.

Very few persons, even among physicians, would have been willing upon any terms to have been in the condition of the writer of the following letter on the 14th of February last. I will anticipate somewhat his report of the facts by saying that on the 15th of August last he made me a visit, the very picture of health. Time, which tries and proves all things, has sufficiently tested this case, and shown that neither relapse nor evil can have followed; the cure is perfect, and can be cited among the scores of similar cases the result of my improved mode of treating disease without medicine.

G. M. BOURNE,
Water Cure Physician,
No. 10 Masonic Temple, Post street.

[illegible]

Dr. G. M. BOURNE—Dear Sir:—It is with pleasure and satisfaction that I now let you know of my good health. Looking back upon what I have passed through, it seems as if I had been lifted from the grave, and I think it my duty to acknowledge to you, and the world the benefit derived from water treatment as administered by you at your celebrated baths. [illegible] disease developed itself in a severe cough [illegible] took medicines, getting worse [illegible] of strength, and was pronounced consumptive. This set me to thinking, and finally determined to leave all business and go to the Sandwich Islands, having been informed that I could not be cured here. I went to San Francisco, and while waiting for a ship called upon Dr. Bourne, who stated that a trip to the islands would probably result disastrously, was wholly unnecessary, and I could be speedily cured at his establishment. I put myself under his treatment, and in one week was so improved I thought I could risk returning home and my duty as Engineer on the Central Pacific Railroad. The Doctor objected, but I thought I knew best, and returned to duty. [illegible]

I alwus wuz agin slavery ov enny kind, not bekase it wasn't konstitutional, but bekase it wus ungodly.

I don't believe the best judges of kolor kan pick out a nigger's soul in the kingdom ov Heving.

I believe in the doctrie ov secesshon—if I don't like mi home and am 21, I hev a rite tew go oph, but i haint got enny rite tew take the old man's farm or his tin-wair with me.

I voted for Ande Johnson; he is a very smart man; he has sed a grate menny good things—about himself.

I am in favor ov him fur the next President, after he is elekted.

I am in favor ov the Filadelfy Convenshun; the Bible speakes about a convenshun that was once held at a town called Babel, out East; there wuz so much folks there, ov different ideas, trying tew talk the same language, that their tungs wuz suddinly konfounded tew sute their sentiments; this mite happen once more, and then we might get at the truth.

I am in favor ov a Soratogy Convenshun, and so are aul the hotel keepers and pharaoh bankers up thare too, so i am told.

I am in favor ov the President's rekonstruckshun policy, if i only cood understand it. It works well in Lousyanna, and would work the same way up in Varmount.

Individools ov a wandering turn ov mind kan git out ov the Union, but no Stait kan; therefore I am in favor of having all the Staits represented in Kongress, jest as soon as there kan be found enny white mails who haint been wandering tew mutch lately.

This may be difficult to find, and it may be necessary to admit sum niggers for a spell; in case it shood, I wood advise having them ironklad.

I am in favor ov a high tariff, so high that no forrin things cud git within 300 miles ov our eastern coast for six years, and ef we must be eat up with hi prices, let us eat up ourselves, and see how it tastes.

I am in favor of being made Postmaster in our city, but i am about the only man that iz, wich speaks well for the disinterestedness ov my fellow-citizens.

I am also in favor of short stories, when a man haint got mutch to say.

DR. CHARLES H. TOZER'S
PRIVATE MEDICAL INSTITUTE,
Northeast Corner of Kearny and Jackson Streets,
SAN FRANCISCO.

The Great Eradicator of Special complaints, formerly of Locke Hospital, London, Eight Years in Sacramento, and the last Four Years in San Francisco.

DR. TOZER'S

Experience is of forty year's standing, and during that time he has met with unparalleled success in the treatment of all those diseases generally known as Venereal or Chronic.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seat of the disease, the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering: Nervous Debility, Loss of Memory, Pain in the Limbs and Back, Palpitation of the Heart, Trembling of the limbs, Headache and an aversion to general society, especially that of females. There are a great many more, but these are sufficient, and should you be suffering from any of them, call on DR. TOZER, and he will cure you in a short time, without any interruption to your business—or state your case by letter, and there will be no occasion for your calling at the office.

Stricture of the Urethra

Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourself of its terrible results. The worst cases cured in a few days.

Venereal Diseases,

In all their various forms, either Primary, Secondary or Hereditary, completely eradicated from the system.—Your constitution being restored to perfect health, there will be no danger of handing down to your children that terrible disease known as Scrofula.

Syphilitic Disease,

As it presents itself on this coast, is of a more formidable character than that seen in the Atlantic States or Europe, arising from the fact of its being a compound of Spanish, Chinese and Sandwich Island disease. Those of you who have visited the two countries no doubt have seen the dreadful effects of it on the native and foreign population. It requires altogether different modes of treatment.

The Old Formulas

Of Ricord, Acton and Bostwick, are of little account, except to dry up the disease on the surface, leaving the poison in the blood, which, sooner or later, will show itself as a secondary disease in an aggravated form.—These facts I have learned by experience, and think I can say without boasting, that I have seen more practice in these diseases than any other physician in San Francisco, dating, as it does, from 1849. It becomes you, therefore, to think well before you employ a physician. Who is the proper one to consult? An old experienced one, or one who has recently settled among you?

My plan is purely vegetable, destroying the disease and purifying the blood so that there is no danger of secondary symptoms.

Rheumatism, Neuralgia,

And diseases arising from the use of Mercury, such as pains in the skin bones, swellings of the different joints of the body, running sores, etc., and impurities of the blood, cured in a short time by the use of my VEGETABLE MIXTURES, known only to myself.

Seminal Weakness.

Should you be afflicted with any of the following symptoms, such as weakness of the Back and Limbs, Pain in the Head, Dimness of Vision, Nervousness and General Debility, Loss of Memory, Confusion of Ideas, and Depression of Spirits, Evil Foreboding, Self-distrust, and an aversion to society, consult DR. TOZER at once, and he will restore you to perfect health.

To Females.

When you are afflicted with Weakness of the Back and Limbs, Head, Loss of Muscular Power, Palpitation of the Heart, Irritability, Nervousness, Extreme Urinary Difficulties, Derangement of the Monthly Sickness, Sterility, and other diseases peculiar to females, consult DR. TOZER, and you will receive particular attention. Let no false delicacy prevent you, but apply at once, and save yourself from painful suffering and premature death.

My rooms are so arranged that there is no danger of exposure, and of meeting any one save the Doctor.

My FEMALE MONTHLY PILLS were never known to fail in giving relief in those cases for which they are recommended. To be obtained only at my office.

Price, FIVE DOLLARS—with full directions on each Box. Sent by Mail or Express.

To Correspondents.

Patients of either sex, residing in any part of the country, however distant, who may desire the opinion and advice of DR. TOZER, can, by submitting a written statement of their case to the Doctor, receive all the attention and medicines necessary to affect a cure without the necessity of a personal interview.

All letters strictly confidential, opened and replied to by the Doctor himself.

Consultation at the office or by letter, FREE.

Cures in all cases guaranteed.

Office hours from 9 A. M., to 9 P. M.

A Grateful Acknowledgement to Skillful Gentlemen.

SAN FRANCISCO, June 1, 1866.

Dr. Chas. H. Tozer.—Dear Sir: You will excuse me for not writing to you sooner. You will please remember me as the individual who called on you for assistance about a year ago. The roof of my mouth had completely rotted out, and my palate dropped down and there remained, stopping up the passage so that I could hardly eat. You remember you cut it out at once, which relieved me immediately, and I was enabled to swallow my food, and in a short time began to improve. I took your medicine, and followed your directions for several months You finally succeeded in stopping the disease, saving my my nose and upper lip, though you frequently cautioned me about losing it. I continued to improve until you finally recommended me to go into the country, and before going, by your advice, I had a cast taken of my mouth, in order that I could have a plate made for me to enable me to speak so as to be understood, and am now using it. My eternal thanks are due to you and DR. DEMAREST* for the perseverance and skill that you displayed in my case; and I have to thank you for my restored health, and even my life, as I was very near bleeding to death several times from the nose. I am now in Sacramento City, enjoying good health, and I shall recommend all my friends to call on you should they be so unfortunate as to require assistance; and I would advise all persons to avoid certain scientific doctors in your city, for they will send them to a land from whence no traveler returns.

With my best wishes for the success of both of you, I remain yours, etc., S. S. T.

MEDICAL.

THE LIGHT OF THE WORLD.

DR. MAGGIEL'S
PILLS AND SALVE!

These Life-giving remedies are now given to the world. For over a quarter of a century of private practice the ingredients in these

LIFE-GIVING PILLS!

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH,

For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle-aged, they will prove most invaluable, as a ready, specific, and startling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to vigor and make youth ever

AN ETERNAL SPRING!

It was left for this day and hour to realize the dream, and show in one glorious fact, the magic that made it fair.

These Famous Remedies!

Cannot stay the flight of years, but they can force back and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

FOR BILLIOUS DISORDERS

Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed, These remedies are made from the purest

Vegetable Compounds.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngset babe.

FOR CUTANEOUS DISORDERS

And all eruptions of the skin, the SALVE is most invaluable. It does not heal internally alone, but penetrates with the most searching effects to the very root of the evil.

DR. MAGGIEL'S PILLS.

Invariably Cure the following Diseases:

THE GREAT REBELLION!

Much anxiety has been manifested by the Reading Public during the past few months to see the completion of this History, which was commenced at the breaking out of the Rebellion, by the

HONORABLE J. T. HEADLY,

America's most popular author. The Publishers now beg leave to announce to the public, that the Work is completed and ready for delivery; finished in the finest style of the book-making art; containing 1208 closely printed royal octavo pages on fine paper—embellished with seventy-four splendid STEEL PLATE engravings of all the leading Generals and Public Men NORTH and SOUTH, and Spirited Scenes of Naval and Land Engagements which bring the reader face to face with the very conflict In the preparation of this work the author has traced the footsteps of the Rebellion, not only in the field, but in the councils of political and diplomatic bodies, following closely each day's proceedings NORTH anp SOUTH, giving every

Order, Proclamation, Battle and Event,

In the order in which they occur, with an impartial review of everything of interest making it a Complete History of the Rebellion.

Mr. Headly's "Sacred Mountains;" "Washington and his Generals;" "Napoleon and his Marshals" which have given him such fame as a writer, are but a prelude to the copious and fascinating descriptions portrayed in this his greatest work—which instead of grating on the reader's ear with the cries of death, leads him gracefully to the sublime achievements of heroism until it reaches a plane of contemplation that is imposing.

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALE and IRREGULARITIES IN FEMALES are the great destroyers of health They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles in dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be Satisfied with Partial Cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT SPEEDY and PERMANENT,

Cures are always Guaranteed.

In syphilis and its adjuncts; Gonnorhœa and its accompanying diseases; and all diseases of the Bladder, Kidneys, and prostrate; Seminal Weakness; Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, cure always warranted, NO PAY REQUIRED, at the

SEMINAL WEAKNESS OR SPERMATORRHOEA.

The young man who experiences that growing weakness in his muscular and mental organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptons of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life aed manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of her happiness, is a victim to his evil, and an innocent companion of his punishment He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below,

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and by the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. AMERICAN INSTITUTE
NEW YORK, 1865.

To the FLORENCE SEWING MACHINE CO. for the Best Family Sewing Machine,
HIGHEST HREMIUM! GOLD MEDAL!

REASONS:

1st.—Its simplicity and great range of work.
2d.—The Reversible Feed Motion.
3d.—The perfect finish and substantial manner in which the Machine is made
4th.—The rapidity of its working and the quality of the work done.
5th.—The self-adjusting Tension.

The Florence was awarded the first and highest premium at the State Fair of California, the only Fair on the Pacific coast at which any two doubld thread Sewing Machines were exhibited in competition in 1865.

The Florence received the only premium awarded, by the Mechanic's Institute of San Francisco, in 1864 and 1865, to any Sewing Machine, Sewing Machine Co., or Agent. The claim of a competitor to a medal is without any foundation whatever.

Wherever the Florence has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most simple, the most substantial, the most efficent, and its use is easily learned. Every Machine sold is guaranteed in the full sense of the word.

PRIVATE MEDICAL AID.

QUICK CURES AND MODERATE CHARGES

DR. W. K. DOHERTY'S
Private Medical and Surgical Institute,

Sacramento Street, below Montgomery, opposite the Pacific Mail Steamship Company's Office. Private entrance on Leidesdorff street, San Francisco.

Established expressly to afford the afflicted sound and Scientific Medical Aid, in the treatment and cure of all Private and Chronic Diseases, cases of secrecy and all Sexual Diseases.

TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal emissions, Sexual Disability, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to ensure him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

DR. DOHERTY would call attention to the following certificates from two of his patients, who, having fully recovered their health, desire to make known their remedial agent. It will be seen their statements are fully authenticated by a Notary Public.

The welfare of society imperiously demand their publicity, and they are given more to warn the unwary than to sound the praise of a Physician of whom hundreds of like cases can be cited, during his practice of more than fifteen years.

DR. DOHERTY—Dear Sir: I feel my health so fully restored, that in common gratitude, I believe I should make you some some written acknowledgement for your valuable services—particularly as your fee was small for the work performed.

I arrived in this city from the East about one year ago, and was then suffering from an old case of Gleet, complicated with Stricture. Being a stranger in this city, and believing those Doctors who gave such positive assurances of success were necessarily the best, (some of whom have a large number of titles,) I placed myself in their charge and continued under their treatment until I had lost nearly all hope and a considerable sum of money.

I wish to say now that you are the sixth Doctor I have employed, and the only one that has ever done me any service. My Gleet is wholly cured, the Stricture is all removed, and my general health is beter than it has been for years.

In conclusion, I would say to the many unfortunates who require medical advice, if you have any doubt as to whom you may employ, ask Dr. Doherty for my address and call and see me. (I keep store in this city.) My experience may save you many dollars.

I would also add that in the early stage of my disease I used a large amount of the preparations advertised as an infallible cure for Gonorrhœ, Gleet, etc., but never derived any benefit from them.

I am, Doctor, very truly yours, L—— H——.

San Francisco, June 16, 1864.

Subscribed and sworn to before me, this 21tt day of June, A. D. 1864.

[L. S.] A. S. [illegible], Notary Public.

Seminal Weakness—A Sworn-to Certificate of a most Remarkable Cure of Spermatorrhœa.

A desire to benefit humanity, and a feeling of gratitude to Dr. W. R. Doherty, alone induces me to make this statement. For many years I have been afflicted with that fearful disease known as "Spermatorrhœa," or Seminal Weakness, the result of self-abuse, but till 1855 experienced but little trouble or inconvenience, In that year however, I had Seminal Weakness to an alarming extent, which was soon followed by the most alarming symptoms as weakness of the back and limbs, pain in the head, dimness of vision, nervousness and general debility. My mind, too, was afflicted to such an extent as to seriously impair my memory; my ideas were confused and spirits depressed. I was averse to society, had evil forebodings and self-distrust, and was entirely unfitted for any of the duties of life. From 1855 to the summer of 1863, I employed the very best medical talent I could find, and spent several hundred dollars, but in no instance obtained more than temporary relief. I had about concluded there was no relief for me in this world, but seeing Dr. Doherty's advertisement, I thought I would call and see him, as he charged nothing for consultation. I had an interview with Dr. Doherty at his office, in Sacramento street, and his fee for treatment was so reasonable, I determined to try him, though I did not expect much benefit from his treatment. On the 5th of December last I placed myself under his care; in one week I found myself very much improved, and, now, after five weeks' treatment, I feel myself thoroughly cured of all my troubles and in the enjoyment of the best health. Hoping that my experience may be of benefit to others similarly afflicted I subscribe myself

JAMES JOHNSTON.

Subscribed and sworn to before me, this 15th day of January, A. D. 1864.

[L. S.] A. G. RANDALL, Notary Public.

To Females.

When a female is in trouble, or afflicted with disease as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, irritability, nervousness, extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility, and all other diseases peculiar to females, they should go or write at once to the celebrated female doctor, W. K. Doherty, at his Medical Institute, and consult him about their troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies whose delicate health or other circumstances prevent an increase in their families should write or call at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

To Correspondents.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred. Dr. Doherty takes this opportunity of observing, that all letters are only opened and replied to by himself, and the latter as promptly as possible.

If the case be fully and candidly described, personal communication will be superseded, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no purport of the letter or parcel so transmitted.
